

A LETTER FROM THE CZECH REPUBLIC

My very special quilt ... when little pieces of big love are sewn together into one precious keepsake.

We have never visited their church, we have even never met before. Yet these tender-hearted and loving ladies, sisters in Christ from Living Water Community Church Harrisburg, PA , did something very special for me when group from their church came in June to the Czech republic for a short term missions trip. At home they minister others by making quilts and giving them away as a gift to those with illness, refugees etc. And before the trip to the Czech rep. they wanted to know if they could serve and bless someone here this way. One missionary family living in the Czech who are members of this church and also our partners in ministry told them about me. When LWCCH ladies who were here with the group gave me this beautiful gift during our Appreciation meeting it was truly God, s love poured out into my heart through theirs. Their precious manifestation of love brought comfort and encouragement in just the right time as I had many tests done recently and doctors are looking for answers and deciding about next steps. And this heartfelt gift will always be a beautiful reminder of love and care I have been blessed with through these dear sisters.
